

WP 1.3

Sistemi osservativi marini e ricostruzione climatica

WP 2.2

Archivio delle reti osservative marine e ricostruzioni climatiche

C.Fratianni, S.Simoncelli, N.Pinardi

INGV

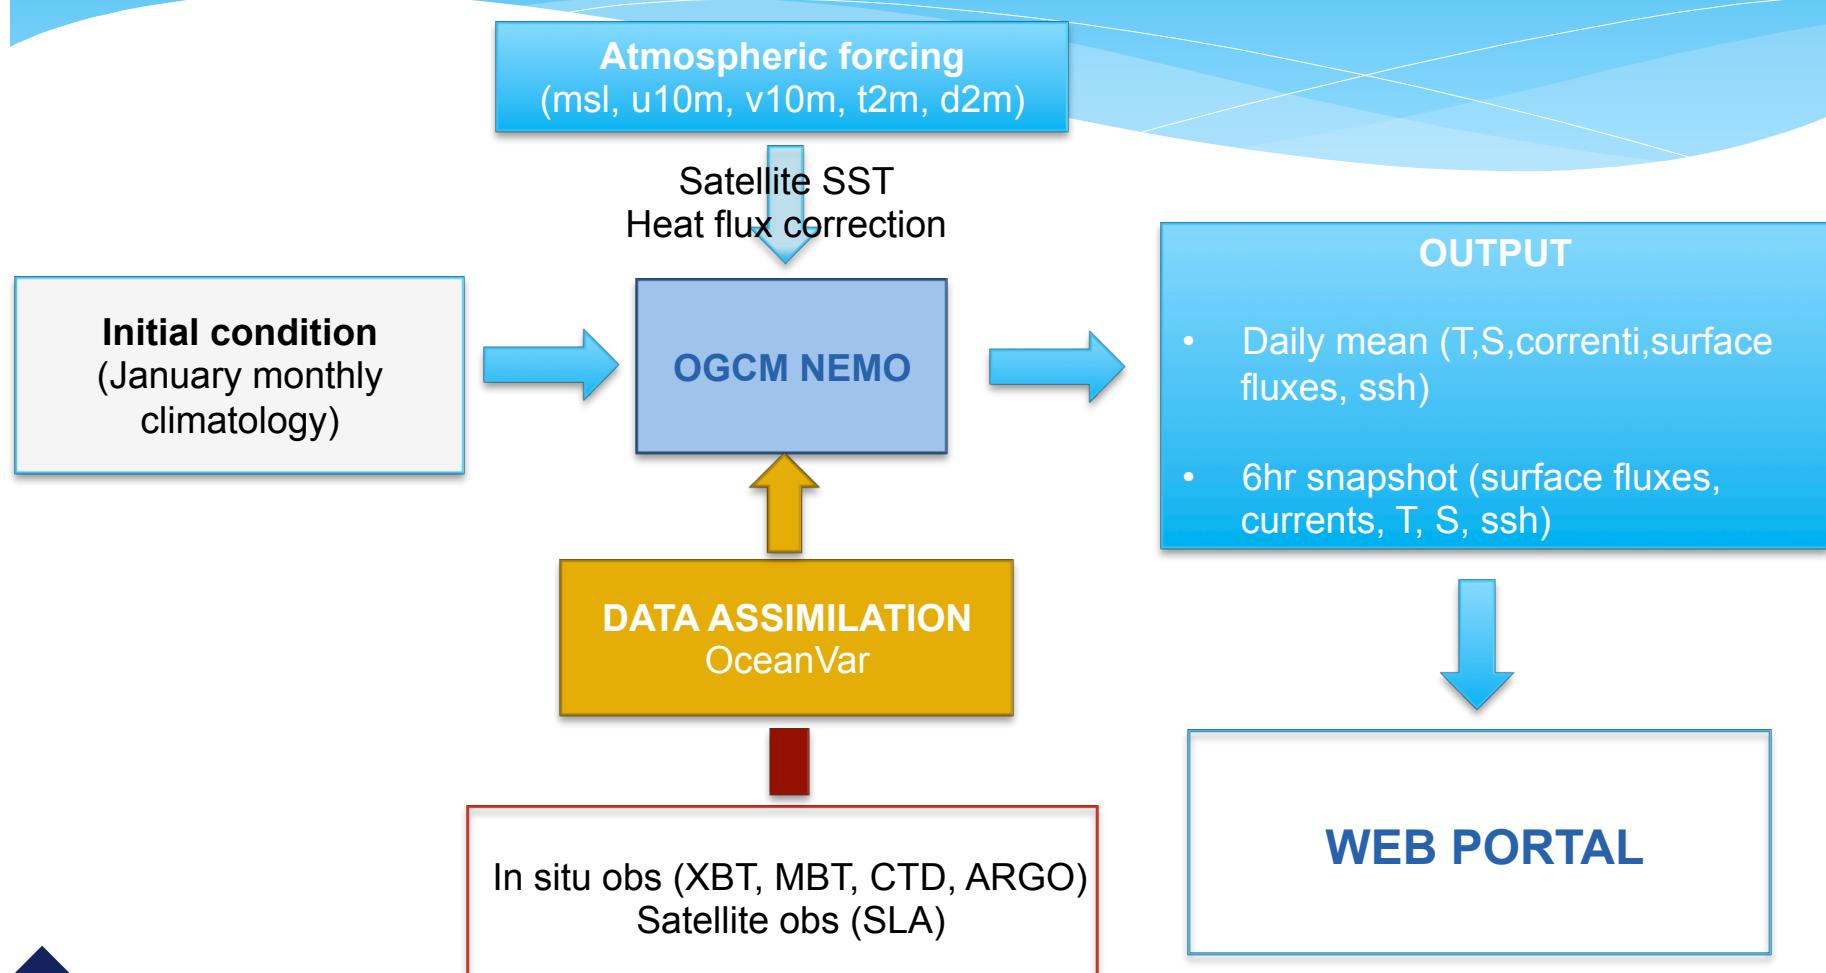

Outline

- 60 years of Mediterranean Reconstruction/Reanalysis (RR) production since 1953
- RR archive and web portal development for services

WP 1.3

Sistemi osservativi marini e ricostruzione climatica

Mediterranean RR System

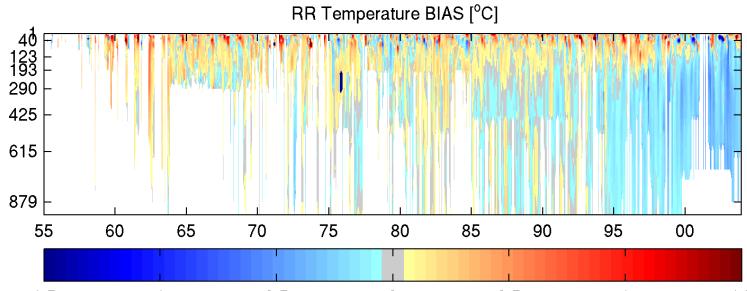

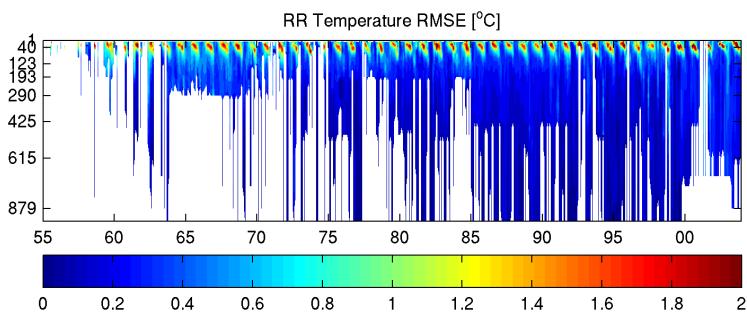

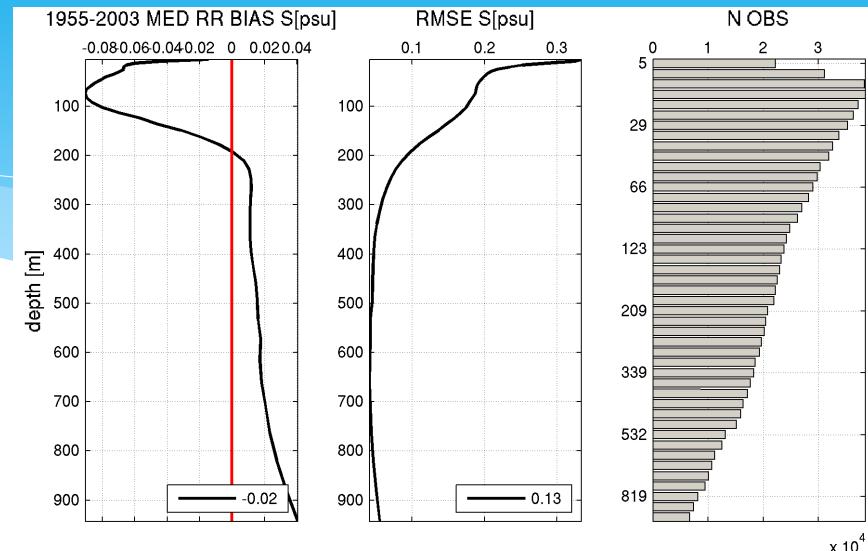

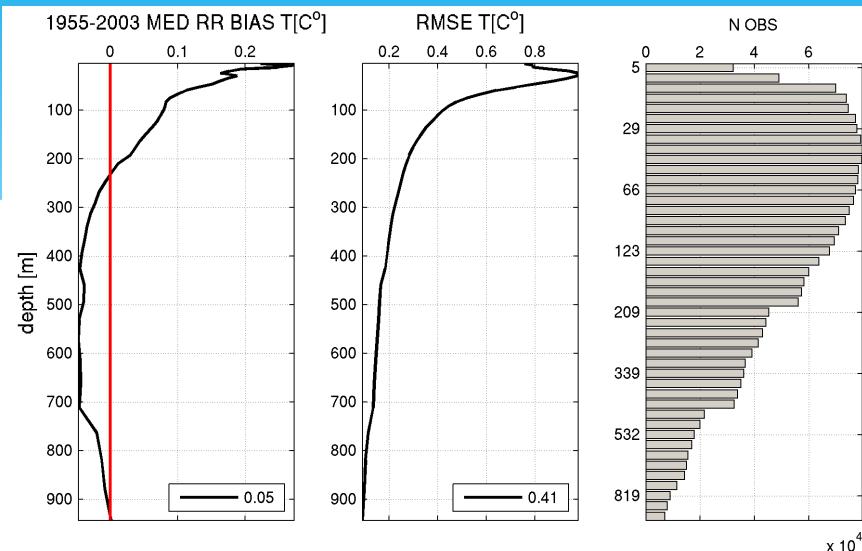

Assessment of RR quality

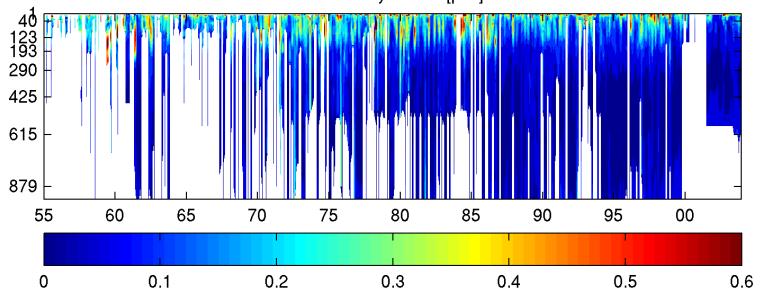

- Fit to observations : validation and verification
- Comparison with other estimates
- Comparison with previous Mediterranean Sea Reanalysis (MyOcean)

Fit to observations (validation: model – observations)

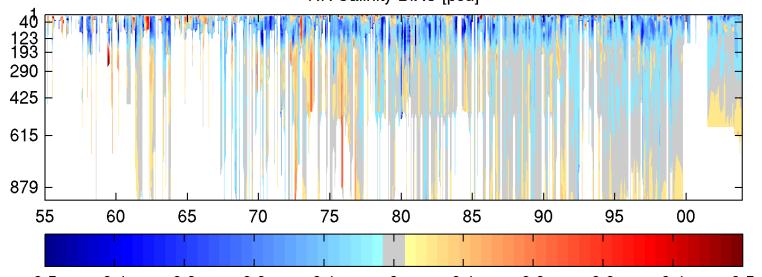

$$m = y_o - H(x)$$

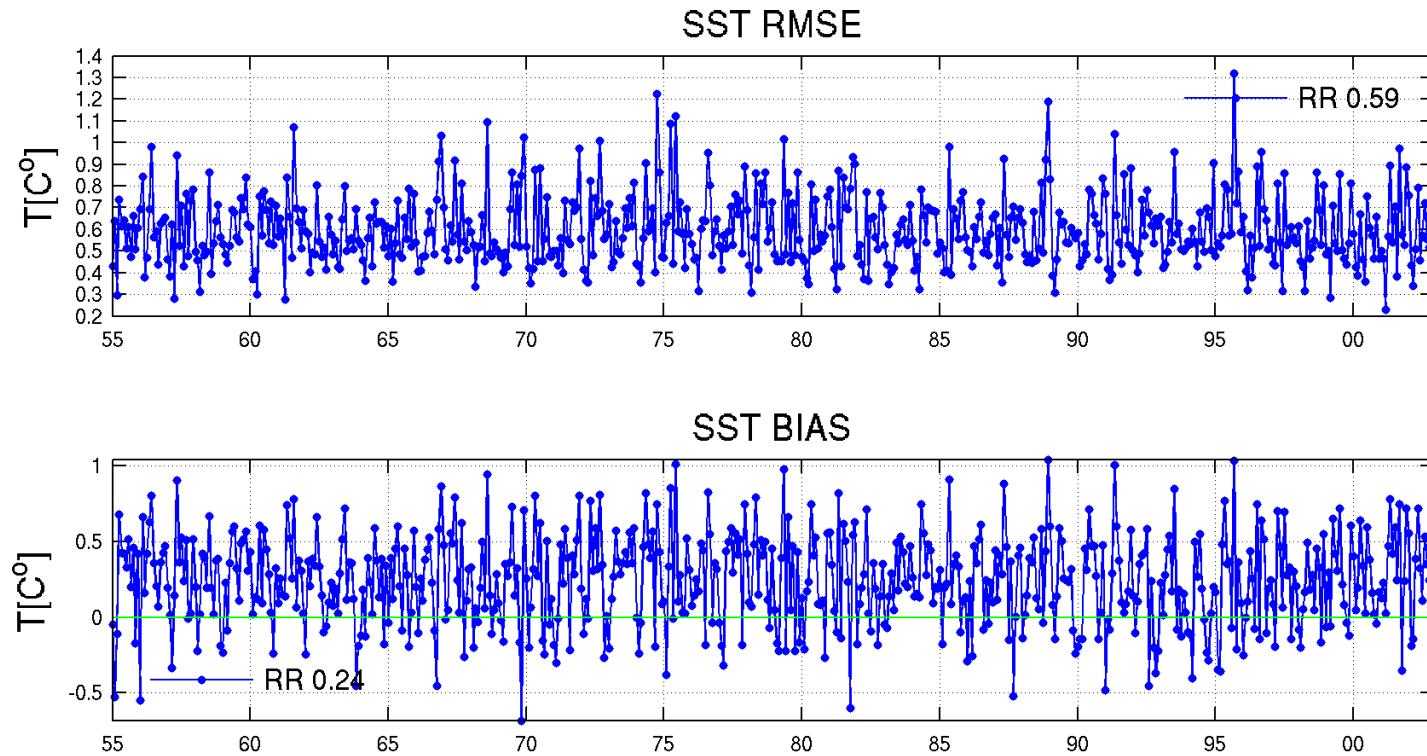

RMS

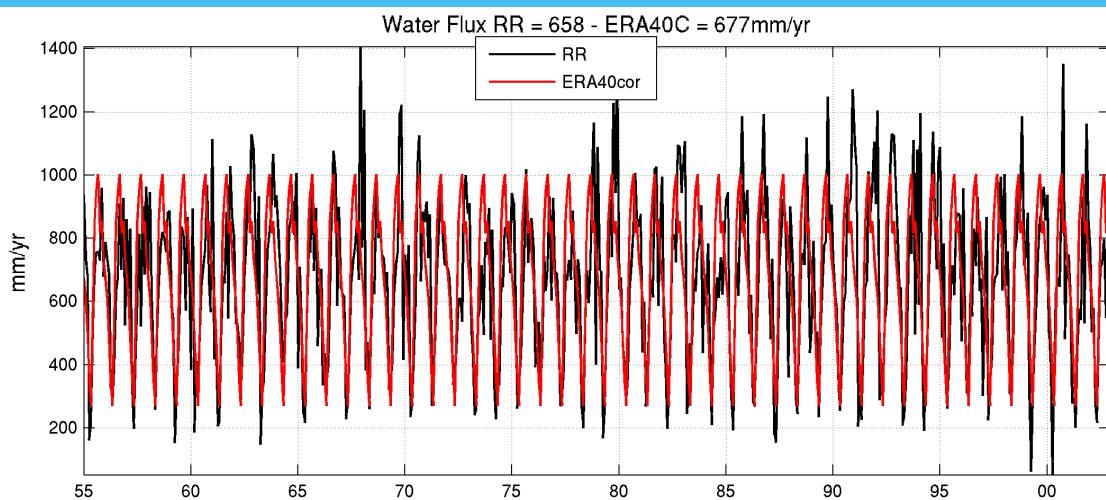

BIAS

Fit to observations (verification)

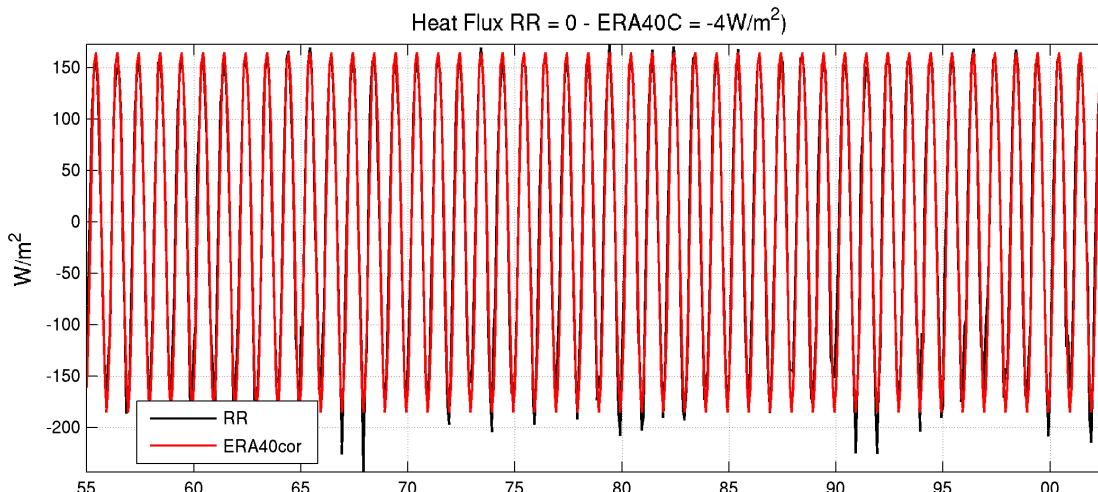

Comparison with other estimates

E – P [mm/yr]

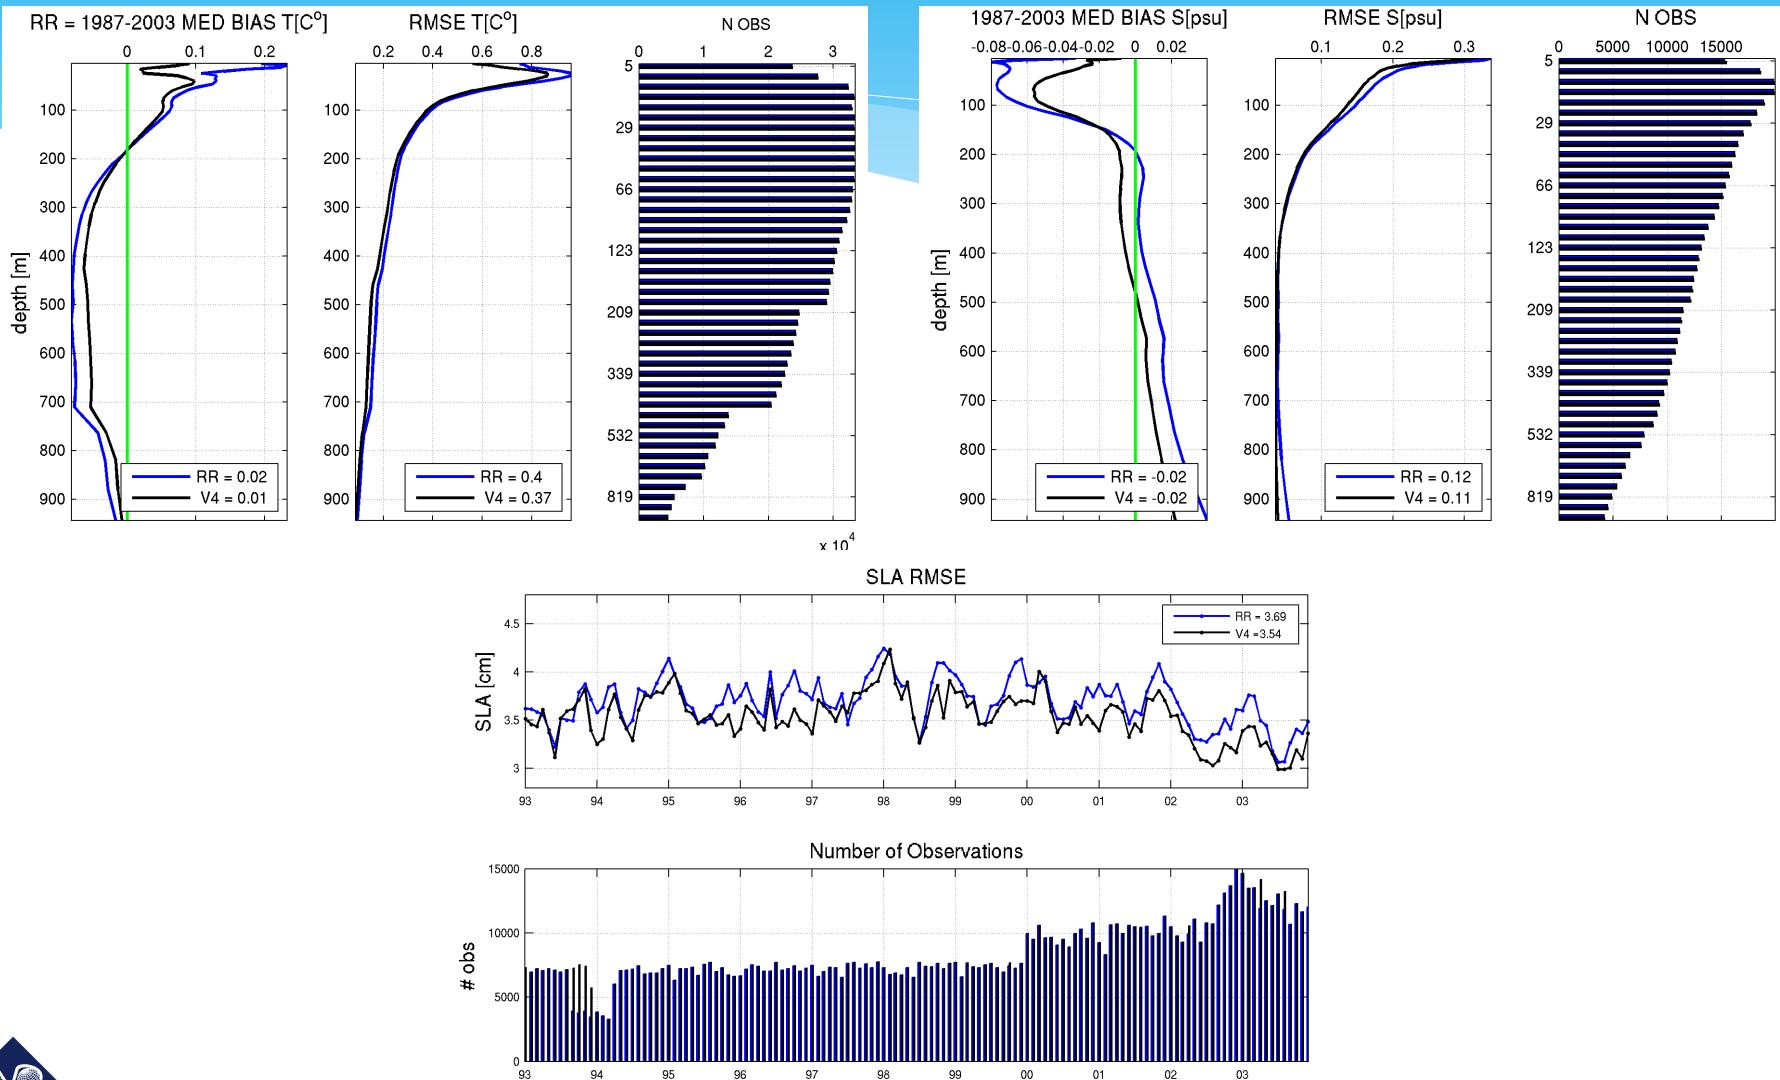

500 – 700 *Mariotti et al, 2002*
700 – 640 *Pettenuzzo, 2010*

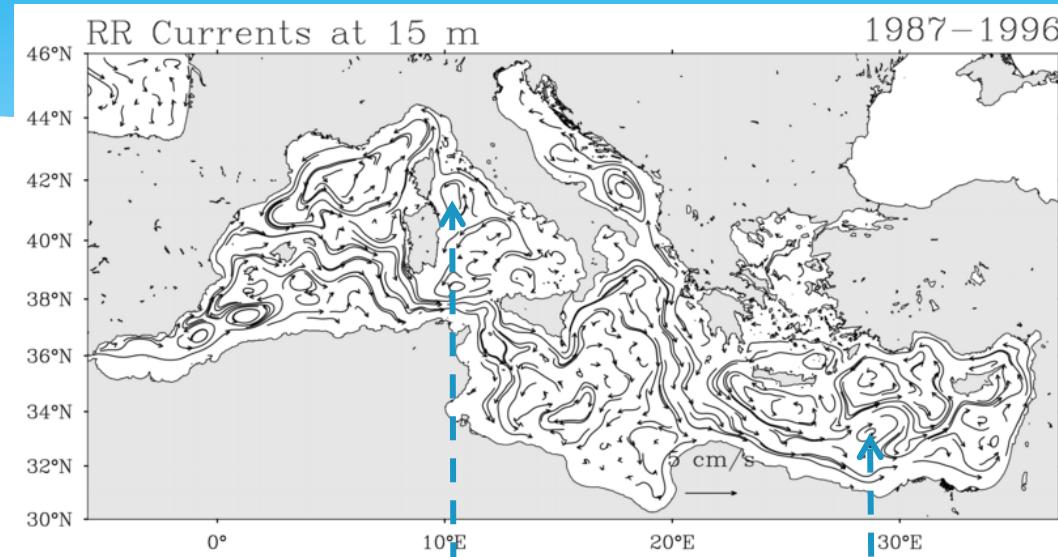

Net Heat flux [W/m²]

- 6 ± 3 *Pettenuzzo, 2010*

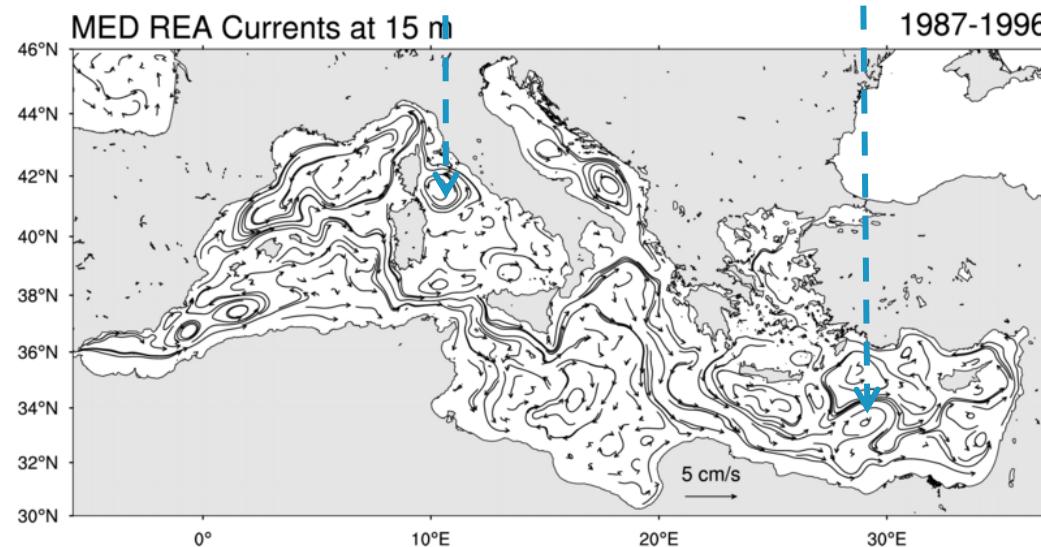

Comparison with previous Mediterranean Sea Reanalysis

Comparison with previous Mediterranean Sea Reanalysis

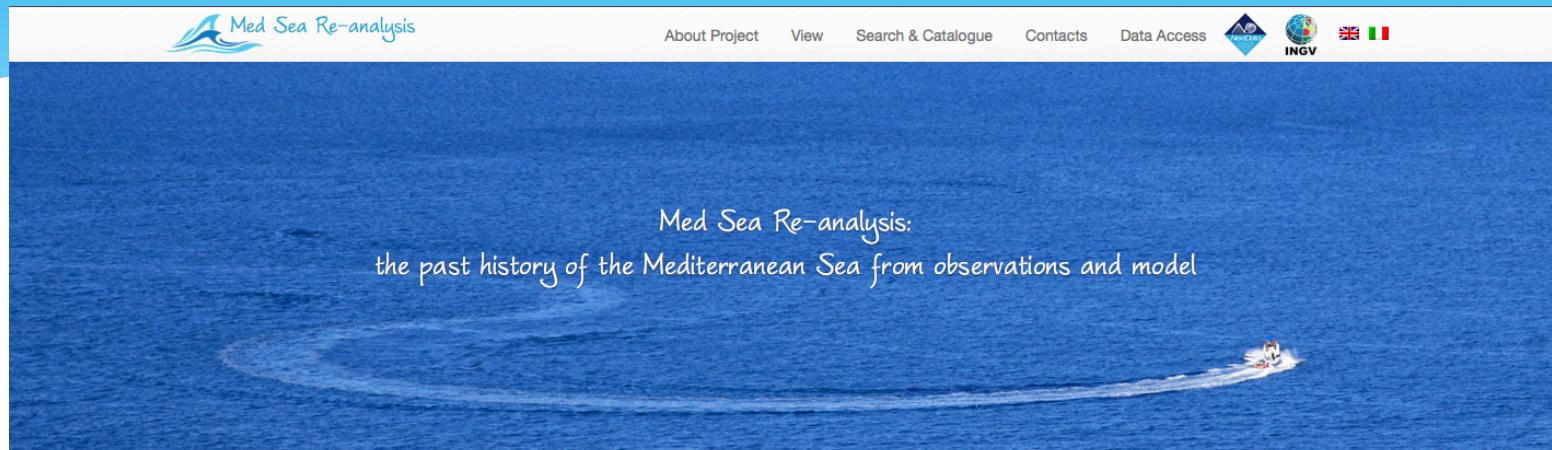

AMIP (1.125°)

EraInterim (0.75°)

WP 2.2

Archivio delle reti osservative marine e ricostruzioni climatiche

View

The view service gives a visual preview of the available dataset.

Search & Catalogue

The RR Data Catalogue Service allows you to find data held within the RR catalogue. The catalogue is populated with 'discovery' metadata (information about datasets) in order to make the discovery easier.

Data Access

The screenshot shows the homepage of the "Med Sea Re-analysis" project. It features a large image of a boat on the Mediterranean Sea. Below the image, there's a heading "Med Sea Re-analysis: the past history of the Mediterranean Sea from observations and model". Below this, there are three main navigation links: "View" (with a globe icon), "Search & Catalogue" (with a folder icon), and "TDS" (with a download icon). The "TDS" link is highlighted with a blue box. At the bottom of the page, there's a copyright notice "© 2014 INGV" and a footer with links to "About Project", "Data Policy", "View", "Search & Catalogue", and "Contacts".

The screenshot shows a web browser window titled "TdsStaticCatalog http://medsearr.bo.ingv.it/thredds/ITv01-RR_d.html". The page title is "Catalog http://medsearr.bo.in". The main content is titled "Dataset" and lists several datasets: "Reconstruction-Reanalysis Dataset" (with sub-folders "ssh/", "sal/", "tem/", and "cur/"). Each dataset entry has a small orange folder icon.

The screenshot shows a web browser window titled "TdsStaticCatalog http://medsearr.bo.ingv.it/thredds/IT-RR.html". The page title is "Catalog http://medsearr.bo.in". The main content is titled "Dataset" and lists two datasets: "Reconstruction-Reanalysis" (with sub-folders "daily Dataset/" and "hourly Dataset/"). Each dataset entry has a small orange folder icon.

RR dataset is delivered in netCDF format adopting international standards concerning standard name and CF convention (CF1.0).

The screenshot shows a web browser window titled "TdsStaticCatalog http://medsearr.bo.ingv.it/thredds/ITv01-RR_h.html". The page title is "Catalog http://medsearr.bo.in". The main content is titled "Dataset" and lists several datasets: "Reconstruction-Reanalysis Dataset" (with sub-folders "sal/", "tem/", "cur/", "wflx/", "hflx/", and "mflx/"). Each dataset entry has a small orange folder icon.
